

Sinclair Broadcasting is harming our democracy. Their daily airing of right-wing propaganda, as told by one of their own vice presidents, using public airwaves is cynical, disgusting and possibly against the law. Sinclair uses public airwaves free of charge and is mandated by law to serve the public interest.

Now Sinclair intends to bolster that daily right-wing commentary by pre-empting regular, prime time programming to air the "mockumentary" program "Stolen Honor," a 40-minute stream of propaganda full of outright falsehoods aimed at destroying one of the presidential candidates. This action is outrageous. I urge you at the FCC, in the name of democracy to stop this immediately. Furthermore, I request for you to notify Sinclair Broadcasting that should they go through with their plans to air this disgusting program without giving equal time to an alternate viewpoint that they place their license renewal in serious jeopardy. Thank you.
